Cheetah Conservation Fund (CCF)

Otjiwarongo, Namibia

Dear Sir /Madam

My Name is Kativa Paulus a student of Namibian university of science and Technology whose doing Natural resource management. As a highly motivated and committed student am humbly requesting for an internship position within your research or educational programs. The work that you do has sparked my interest and therefore as a young keen conservationist am so hoping to learn a lot from CCF as part of my journey in this wonderful career of Nature conservation.

In the process of learning I would love to make a contributed collaboration to your work at CCF, it will as well give me chance at life to face nature head on in terms of field work and professionalism. I believe you have good mentorship as you have been hosting conservation programs for some time now and learning from you will be a great honor. I'm courageous and ready to take over this endeavor if accepted or added to the program. I can ensure you that I will do my best with all my intellectual capabilities to make sure the objectives and goals of the project or research is achieved.

For any more information and procedures, I have attached my contact details and academic records.

Warm regards,

Paulus Kativa
