Dear Sir/Madam

Re: Application for Internship (CCF)

I am a third year student at the University of Namibia, doing a BSc in Wildlife Management and Ecotourism (HONS). I wish to apply as an intern as I am very interested in the internship program with the CCF. Interest in CCF sparked when I visited the CCF Institute on an excursion. I henceforth wish to be attached there. I would be delighted to work as an intern for the ministry for a period of 6 weeks.

CCF is best suitable for me to learn about all aspects of wildlife monitoring and management in Namibia. Helping me improve my knowledge in the management of both endangered and less threatened species and resources. This will ensure that I equip myself with field work and experience based on the knowledge I've attained over the two years of my studies.

I acknowledge the terms and conditions of the internship program and have understood them. In addition I have been awarded permission to apply for this internship opportunity. Hence, I shall not require remuneration from the institute for the time I will be an intern.

Please find attached all required documentation, I patiently await your response. Thanks you for your time and consideration.

Yours sincerely

Kenneth K Chainda
