Dear Sir/Madam

RE: INTERNSHIP

I wish to submit a prospective application for an internship role in your organization. I am currently an undergraduate studying global challenges and wildlife conservation. I wield over two years of work experience where I have gathered relevant knowledge in conservation practices, nurtured skills in project planning and management, teamwork, and team leadership. I also developed networking, graphic design, and communication for impact from my ALU Leadership core courses. I believe these skills will be resourceful in your organization if given a chance.

I believe my experience coupled with my personal competencies should prove invaluable to your organization if given a chance. I have enclosed my CV for your perusal.

Yours Faithfully  
Lassana Ndiaye
