### TESTIMONIAL LETTER FOR MR. JONAS SERVELUS

I wish to confirm that Jonas Servelus has completed the Three (3) years Pearson BTEC National Diploma in Electrical/Electronic Engineering Level 3 Course of study which he started in 2017 until 2019 academic years.

His qualities are not only in written examinations but more so in practical related assignments, group work and during industrial visits. He was exceptional in practical assignments and always stimulated critical intellectual discussions both inside and outside the classroom. As the Head of School for Applied Engineering and Information Communication and Technology (SAEICT), I know these qualities are suitable in the engineering profession.

In addition to having first-hand knowledge of his academic commitment, I am also familiar with his educational goals, as well as his career ambitions which are to be an exceptional professional in the field of Electrical/ Electronic Engineering.

I feel certain that you will be just as impressed with Jonas as the staff at National Institute of Technology (NIT) has been over the past three years.

Jonas would be a tremendous asset to your organisation and I recommend him to you without reservation. If you have any further questions with regard to his background or qualifications, please do not hesitate to contact me.

Yours Faithfully
