**To whom it may concern**

**Re: Reference letter for Hilma Tomas**

This is to certify that Ms. Tomas is currently a 4th year student in Environmental biology (Biology major and Geography minor).

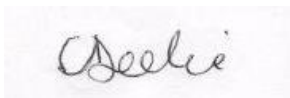

Hilma was employed as a student assistant and demonstrated for various modules including:

- Introduction to Biology (1<sup>st</sup> Year)
- Diversity of Life (1<sup>st</sup> Year)
- Animal Form and Function (2<sup>nd</sup> Year)
- Environmental biology for educators (3rd year)

Any task delegated to her will always be dealt with, with the utmost commitment. She is also very resourceful in completing assigned tasks.

Ms. Tomas has a pleasant personality which allows her to relate well with her peers and colleagues around her. Her pleasant temperament will enable her to be successful in a wide variety of disciplines. I am confident that given the necessary supportive environment she can excel academically and professionally. Therefore I can strongly recommend Ms. Tomas for any position she might apply for.

Yours faithfully

Cathleen Deelie

LECTURER: DEPARTMENT OF BIOLOGICAL SCIENCES
