

O7 August 2019

Dear Sir/Madam

I am writing to apply for the Ecologists Internship currently posted on CCF Namibia website. I have been actively following CCF Namibia's role in the aim of bringing up valuable role and am very interested in supporting this and other programs through this internship. I believe I would bring valuable skills, experience and knowledge to the support of publications, events and other priorities in the role the organisation I want to partake in.

At Namibia University of Science and Technology I am a third year student for Bachelor of Science with focus on Biotechnology and Ecology. I have two years of non-profit work experience; excellent interpersonal, communication, computer and internet research skills; and significant event coordination experience.

In addition to my experience and personal qualities, I have a solid educational foundation and a passion for restoration ecology. I am extremely enthusiastic about CCF Namibia's focus on restorations and would welcome the opportunity to contribute to your successful endeavours.

Please review my attached resume for additional details regarding my expertise and career achievements. I will follow up to request an appointment to discuss how my experience and background meet your needs.

Thank you for your time and consideration.

Sincerely,

W. T Fillemon
