This is to certify that **Eprafas Urho** born on 08 November 1994 was a bonafide student of the above-mentioned school from January 2014 to December 2015 when he completed his Grade 12.

I have known him to be a hard working and co-operative person. His schoolwork during his stay has been good. He proved himself to be a learner of good characters and he finds it easy to follow school rules and regulations.

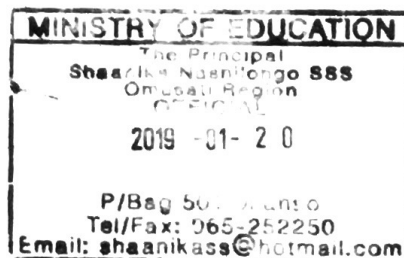

It is in this regard that I recommend him for any suitable job, admission to a College or University or to be issued with a bursary to further his studies or to be assisted with any assistance he might be required.

My best wishes accompany him.

Yours faithfully
