

# Application

Cheetah Conservation Fund

My application for  
**Working Guest**

München, 19.02.2021

Dear CCF Team,

I have traveled for many years in different countries and have put my labor in the service of animals and nature conservation. My great passion belongs to Africa and its nature and culture.

Through our German actor Hannes Jaenecke, who reported about your work in his documentary film 'Im Einsatz für die Geparden', I became aware of you. For a long time I have had the wish to get involved in a project like yours.

I would like to inform myself about your work on the spot and support you actively.

In all the years that I have been working as a volunteer, I have become more and more aware that it is so important to draw attention to the situation of African wildlife. Because many people who travel to Africa for safaris often overlook the problems caused by the human - animal conflict, which puts enormous pressure on the species.

In 2016, I have already worked for EHRA in Namibia and was able to see on site what a positive impact the work of this organization has on the coexistence between animals and humans.

I would like to continue here and support you in your wonderful work.

I would be very happy to be accepted as a working guest in the summer of 2021.

Best regards

Simone Lagrave
