Dear Sir/Madam

RE: APPLICATION FOR INTERNSHIP OPPORTUNITY 2020

I am Abisai T Amaambo, currently third year student at Namibia University of Science and Technology doing my bachelor's degree in Natural Resource Management which falls under faculty of Natural Resource and Spatial Science. I humbly looking for WIL placement in your organization. I am writing to apply for a 6 month internship position in your organization of Cheetah Conservation Fund starting from 06 January 2020 – May 2020 in order to finalize my study.

I am eager and willing to work with you in any task that you will give me. I always raise awareness on the importance of conserving our species so that they can be found by next generations in years to come. During my years of studying I was exposed to a lot of practical and field work. Some of the practical works I did include fencing, crime scene investigation, game counts and observation of animals behaviour. I am fast learning person, hard working, Team worker and always willing to learn new things.

It will be my great honour and privilege to work and carry out my research at the above-mentioned stations. I would like to work with people by educate them to stop illegal hunting of wildlife animals but to report to the ministry of environment and tourism. I would to gain more knowledge how to protect and conserve the environment so that our natural resources will not depleted. It is my hope that you will assist me to reach my dream. I am willing to work without any payment.

I hope my application will reach your favourable response and I am looking forward to hearing from you soon.

Yours Faithfully

abisai amaambo
