

Dear Sir/Madam

I am Auguste Timoteus, a 23 year old Namibian Female, currently a final year student at the University of Namibia pursuing a Bachelor of Science in Environmental Biology (honours). I have a great passion for the conservation of biodiversity, I first heard of Cheetah Conservation Fund (CCF) and the work that your organization does from our Conservation Biology and Biodiversity lecturer during a lecture period and I have since been keen to contact your organization. I am therefore humbly requesting for an internship/volunteer from your organization. This internship opportunity will help in shaping my career as a young conservationist and it will also broaden up my knowledge in conservation and chances of employment.

I am very impressed and want to be part of the holistic work that CCF does in conserving the cheetahs and improving the concept of human-wildlife conflict by creating awareness to the local community.

I am looking forward to hearing from you soon, for any enquiries regarding my application feel free to contact me at any time on +264 81 280 2671 or on my email address: [augustetimoteus@gmail.com](mailto:augustetimoteus@gmail.com).

Kind regards

Auguste
