CCF Internship Program

RE: APPLICATION FOR INTERNSHIP

Dear Sir/Madam

I am writing to apply for the Internship opportunity vacant in your organization. I am confident that I have the knowledge and skill required to professionally fulfil the position as required by the organization, in addition to that I am still eager to enhance and refine my personal within the organization and take on any challenges that lie ahead.

Currently I am studying towards my honors degree in Information Technology (IT) majoring in systems administration and networking at the University of Namibia (UNAM) on part time basis of which I am in my 4th year. I have also completed a Diploma in computer science from the University of Namibia (UNAM).

I like to describe myself as a more technical/hands on individual if I am to describe what type of IT individual I am ,throughout my journey of pursuing my dream job I have acquired skills from all the past jobs that have landed which also helped to shape me into the professional I am today. Apart from educational qualities, I am also a very good communicator whether be it with clients or fellow colleagues in the work environment. I also posses the ability to improvise and provide quality results of duties assigned to me while working under pressure.

In conclusion I would like to thank you for taking time to consider my application and look forward to hearing from your organization soon.

Your Faithfully
Collen M. Iyambo
