Dear Sir or Madam,

During the four first years of studies at the national veterinary school of Alfort, students have to validate personal project-based credits. To this end they have to participate in work placements, including necessarily abroad ones, matching their future career path. The work placement Mathilde Lévecque intends to carry out at the Cheetah Conservation Fund in Otjiwarongo, Namibia, has to fulfil this objective, and contribute to her training and the preparation of her veterinary diploma.

Maxime Delsart
