RE: LETTER OF RECOMMENDATION –PATEMOSHELA KASHIKOLA

I am a Senior Lecturer at the Department of Biological Sciences and have been at the University of Namibia for the last 8 years. Patemoshela is a student at the Department of Biological Sciences at the University of Namibia in Windhoek and attended my Ecological Field Techniques, Aquatic Ecology and Ecological Systems and Climate Change modules. I request that you consider her for any potential internship at your institution.

It is very important for the University that students do internships at stakeholders to familiarize themselves with the job market. Through these internships they get the necessary practical skills and knowledge to prepare them to enter the job market as accomplished young scientists.

Please do not hesitate to contact me for any information you may need.

Yours sincerely,

Dr C. Hay
Senior Lecturer
Department Biological Sciences
