To Whom it May Concern

**RE: ATTACHMENT OF UNAM STUDENT TO CHEETAH CONSERVATION FUND**

Helena Elago is a second year student (Student number 219382729) BSc (Hons) Environmental Biology at the Department of Biological Sciences at the University of Namibia in Windhoek. She is doing my Ecological Field Techniques module.

It is very important for the University that students do attachments at stakeholders to familiarize themselves with the job market. Through these attachments they get the necessary practical skills and knowledge to enable them to enter the job market as very capable young scientists.

I would appreciate it if your organisation could consider any voluntary work opportunities for this student.

Please do not hesitate to contact me for any information you may need.

Yours sincerely,

---

Dr C. Hay
