Cheetah Conservancy Fund

Dear CCF

An internship can be used as a stepping stone into a lifelong career. As you will see from my accompanying resume, my education and passion have led me to this job, and I believe that my dedication to the field makes me an ideal candidate for this position.

Many students benefited from these efforts, and the organization remains active to this day. I am eager to begin working at any time. Because I am dedicated to this, my schedule is flexible and open; I would be fully committed to this internship position. Thank you very much for your time and consideration

Sincerely,
Fillemon Amweenye
