Dear Sir or Madam,

I am a second year veterinary student at the National Veterinary School of Alfort, in France. As part of my course in study, I have to complete a work placement this summer in line with my professional project. I am therefore applying for a 4 weeks work placement, preferably in July, as a vet student in the Cheetah Conservation Fund.

Indeed this work placement fits in every way my purpose, which has always been to work in a game reserve in Africa and play a part in wildlife protection and conservation. I am passionate about wild animals, especially african ones, and very motivated. Working alongside your team would be great to develop the necessary experience for my professional project.

I am looking forward to hearing from you,

Yours sincerely,

Mathilde Lévecque, EnvA student

PS : I also love drawing animals and would be very glad to have the opportunity to sketch some of your animals !
