RE: Internship

Dear Ms Annetjie Siyaya

I was excited to hear about the internship you offer at the Cheetah conservation fund and would greatly appreciate your considering my placement in this role. The modules I did and practical that were accompanied by them have prepared me to contribute immediate value to your organization.

During the 3 years I have been at the University of Namibia, I worked hard to hone various skills that would enable me to best perform any task given to me with pure determination. Some of the skills were critical thinking. This would allow me to approach any problem with a clear mind and find practical solutions to each one of them to the best of my abilities. I know that what you do is very important and significantly contributes to the survival of our cheetah populations. I would like to be part of that.

Thank you for your time and consideration

Sincerely

Heston Engelbrecht
